ADEMCO microtech

accord xpC

The **accord** range offers **flexibility** and **reliability** designed for today's lifestyles.

Accord Range

The Accord range of intruder alarm panels has been designed specifically for use in residential and business properties.

The Accord xpC offers flexibility and reliability designed for today's lifestyles and working practices.
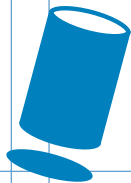

The Accord xpC provides:

- Up to 4 keypads per sytem, with a choice of stylish units
- LED Keypad with back-lit keys
- LCD ICON Keypad with simple easy to follow picture display
- 3 setting options for user convenience - FULL set, PART set and NIGHT set
- Easy set option
- Up to 8 different user codes for family or staff members
- Built-in panic facility
- 250 event alarm memory for recording system time and date stamped activation details
- Digital communicator sends activation information to the Alarm Receiving Centre
- Support for a computer-based, remote service package that enables the system to be checked, serviced or reset without the need for an engineer to visit the premises.

Ademco Microtech…

- represents a resource of knowledge and experience that is second to none in the industry.
- is a marriage of two pioneering companies who, over the last 55 years, have regularly launched innovative products, many of which have gone on to become industry standards.
- manufactures a comprehensive range of intruder alarm systems and components, designed for UK and European applications.
- is committed to delivering a first class product to the customer. The company has achieved and maintained ISO 9001 accreditation.
- provides free product training and comprehensive technical support to professional installers.

simple, versatile, stylish, reliable

accord xpC

The Accord ICON Keypad

Exclusive to the versatile Accord xpC control panel, this stylish keypad offers the end-user a simple, easy to follow iconic display, designed to provide clear system status information.

ICON Keypad dimensions: 135mm x 70 mm x 30mm

LED keypad with backlit keys
dimensions: 119mm x 119mm

The Accord xpC Downloader

A PC downloading package is available to support the Accord xpC panel.

The software package provides remote servicing over a standard PSTN telephone line. It also facilitates real time system status reporting for the Accord xpC panel via the easy to use graphical interface. Copying of the complete Accord xpC event log is also possible using the downloader.

The Accord xpC downloader is compatible with Windows 95/98, Windows NT, 2000 and XP.

Accord xpC control panel

dimensions:
300mm x 250mm x 100mm

Accord Trigger Module

The Accord xpC trigger module has been designed to allow a RedCARE STU to be connected to the xpC. Additionally, it can be used to drive outputs and triggers for standard comms units.

It is supplied in a separate pack with the necessary elements to connect it to the panel.

In accordance with the policy on police response, adopted by the Association of Chief Police Officers in 2001 and implemented alongside the British Standard Institute's DD243:2002 which specifies intruder alarm installation criteria, the Ademco Microtech Accord xpC and Accord xpC-RF control panels can provide confirmed alarm technology. Where installed, the correct registration and use of this technology will qualify premises for police response to activations. L251 Issue 1
